OTIS · USER GUIDE

Adviser

Seeing your check outcomes and putting things right

As an **Adviser**, OTIS is where you see the outcome of checks on your own advice files and record what you've done to put right anything that was found. You only see a case once **every check on it is finished** and there is something for you to act on.

Where you'll work

In the **OTIS portal**, on the **Remediation** page. Sign in with your usual work account.

Where you fit in

Your part of the journey starts once the checks are complete and remedial action is needed.

Dashed steps happen on some cases only: the Tax check where one is needed, the AQS check unless the Tax team returns the case to the paraplanner, the adviser when something needs putting right, and T&C sign-off only for Insufficient evidence, Potential harm or a failed Tax check.

What you can do

- See your own cases that need **remedial action**.
- Read each fail point, what the checker found and the remedial action they recommend.
- Record for each action whether it was **performed**, with an optional note.
- Answer whether **client contact** is required.
- Save a draft and come back to it later.
- Send the remediation to your **T&C Manager** for sign-off, where the grade needs it.
- Follow your cases through sign-off to closure.

How a typical case works for you

1	You receive an email when one of your cases needs remedial action.
2	Open **Remediation**. Your cases are in one list; the buttons above it show **All**, **Remedial action required**, **Awaiting T&C sign-off** or **Closed** (which also shows cases waiting for their final outcome).
3	Open the case. The **Remediation and escalation** form lists each fail point with the checker's remedial action and its target date.
4	For each action, choose **Action performed: Yes** or **No**, and add a note if it helps.
5	Answer **Client contact required?** – Yes, No or Potentially.

6 Select **Save draft** to keep your progress, or **Save and sign off this remediation** when you've finished. If every check on the case graded it **Pass** or **Pass with issues** – for example a Pass the checker marked **Remedial action required? Yes** – the case closes there. A case graded **Insufficient evidence** or **Potential harm**, or that failed its Tax check, moves to **Awaiting T&C sign-off**.

7 Your T&C Manager reviews it. If they approve, the case closes, or moves on to recheck while they record its final outcome. If they reject it, it comes back to you with notes explaining what to correct, and the ten-working-day clock restarts. Your earlier answers stay on the form under **Earlier responses**, and every sign-off decision is listed with its notes, oldest first.

What you'll see – and what you won't

You can see

- Your own cases that need remedial action.
- Your cases waiting for T&C sign-off.
- Your closed cases.
- The full case record and completed checks for those cases.

You won't see

- Cases belonging to other advisers, or their clients.
- Cases still waiting for, or going through, a Tax or AQS check.
- Draft findings that haven't been formally issued.
- Cases that passed – there is nothing for you to do on those. You are emailed when a case passes.

Emails you'll receive

- When a case needs remedial action from you.
- **Case check - Pass**, when a check closes your case with nothing for you to do.
- When your T&C Manager approves a remediation: the email says whether the case has closed or moved on to recheck.
- When your T&C Manager rejects a remediation and sends it back, with their notes and an **Update remedial action** link.
- A case that closes on your own sign-off, with no T&C Manager sign-off needed, sends no email.
- Every email to you carries the PDFs of the completed checks.

Good to know

- You can answer **No** to Action performed and still send the form. Explain why in the note – your T&C Manager decides whether that is acceptable.
- Keep an eye on target dates. An action that has passed its target date is highlighted.
- Use **Open the full case record** to see the case details and the completed checks.
- If a case appears that isn't yours, or one you expected hasn't appeared, let your T&C Manager know.

Need help?

If something doesn't look right – a case you expected is missing, you can't open a page, or an action is refused – speak to your T&C Manager first. They can raise it with the OTIS administrator. When you get in touch, include the case reference and a short description of what you were trying to do.
