OTIS · USER GUIDE

Paraplanner

Staying informed about checks on the cases you worked on

As a **Paraplanner** you support advisers in preparing advice and the client file. **You don't need to sign in to OTIS.** Instead, you're kept informed by email whenever a check on one of your cases is completed, with a copy of the findings attached.

Where you'll work

In your **email inbox**. Paraplanners don't have an OTIS sign-in, and there are no forms for you to complete in OTIS.

Where you fit in

You receive an email each time a Tax or AQS check on one of your cases is submitted, and another when the adviser is asked to put things right.

Dashed steps happen on some cases only: the Tax check where one is needed, the AQS check unless the Tax team returns the case to the paraplanner, the adviser when something needs putting right, and T&C sign-off only for Insufficient evidence, Potential harm or a failed Tax check.

What's expected of you

- Read the findings when a check on one of your cases is completed.
- Look out for fail points marked as yours – a checker can record that a fail is carried by the paraplanner rather than the adviser.
- Work with the adviser to put right anything that falls to you.
- Keep client files complete and up to date in **Intelligent Office**. Checks are carried out against what is on file.
- Make sure your **work email address** is recorded correctly on cases in Intelligent Office. That's how OTIS knows where to send your emails.

How it works

1	A case you worked on is selected for checking and brought into OTIS from Intelligent Office.
2	A Tax Checker and/or an AQS Checker reviews the file.
3	When each check is submitted, you receive an email.
4	The email carries a **PDF of each completed check** – every answer, grouped by section, with the outcome and any fail points.
5	If something needs putting right, you receive a second email, **Checks and remedial points**, with the same check PDFs, when the adviser is asked to act.
6	The adviser records the remediation in OTIS. Where the grading needs it, their T&C Manager signs it off.

Emails you'll receive

When	What's attached
A Tax or AQS check on one of your cases is submitted	A PDF of each completed check on the case (Tax and/or AQS).
Remediation is raised on one of your cases (email titled **Checks and remedial points** and the case reference)	A PDF of each completed check on the case, with its fail points and remedial actions.

Good to know

- If the Tax team chooses **Return to paraplanner**, the case does not go on to AQS. If the Tax check found something to put right, the case still goes to the adviser for remediation. The Tax check PDF you receive shows what they found.
- The attachments contain client information. Store and share them only in line with the firm's data handling rules.
- If you stop receiving emails you'd expect, check that your email address is recorded on the case in Intelligent Office.

Need help?

If an email or attachment doesn't look right, speak to the adviser on the case or your team manager. They can raise it with the OTIS administrator. Please include the case reference.
