OTIS · USER GUIDE

T&C Manager

Signing off remediation and recording the final outcome

As a **T&C Manager** you check and approve the remediation completed by the advisers you supervise. You decide whether each remediation is good enough, send it back if it isn't, and record the case's **final outcome**.

Where you'll work

In the **OTIS portal**, on the **Remediation** page. Sign in with your usual work account.

Where you fit in

Your part of the journey is sign-off, after the adviser has recorded their remediation.

Dashed steps happen on some cases only: the Tax check where one is needed, the AQS check unless the Tax team returns the case to the paraplanner, the adviser when something needs putting right, and T&C sign-off only for Insufficient evidence, Potential harm or a failed Tax check.

What you can do

- See remediation cases for the **advisers mapped to you**, once all checks on them are finished.
- Review each fail point, the checker's remedial action and the adviser's response.
- **Approve** or **reject** the remediation, with notes (required when you reject).
- Answer **Recheck required?** and **Do the remedial actions change the advice?**
- Record the final outcome: **Pass**, **Pass with issues**, **Insufficient evidence** or **Potential harm**.

How a typical sign-off works

1	You receive an email when one of your advisers sends a remediation for sign-off.
2	Open the case from the **Remediation** page. It shows under **Awaiting T&C sign-off**.
3	Read each remedial action, the adviser's **Action performed** answer and any note.
4	Under **All remedial actions checked and approved?** choose **Approved** or **Rejected**.
5	If you reject it, explain in **Notes** what must be corrected and select **Sign off this remediation**. The case goes back to the adviser with a fresh ten-working-day clock, and you are emailed again when they send it back to you. Every decision stays on the form with its notes, oldest first.
6	If you approve it, answer the two questions, choose the **Final outcome** – or **Leave for a separate regrade** if you need more time – and select **Sign off this remediation**. Choosing a final outcome closes the case. If you answer **Recheck required?** No, approving closes the case straight away, with no final outcome needed.

7 Otherwise a case left for a separate regrade waits at **Awaiting Recheck** and you get an email. Choose the final outcome in the **Regraded outcome** panel, give a reason and select **Record the final outcome**. This closes the case.

Choosing the final outcome

For a case graded **Insufficient evidence**: if the missing evidence has now been provided, you can regrade it to **Pass**. If it can't be found and the matter warrants it, regrade it to **Potential harm**. The original outcome is always kept alongside the final one, and your reason is recorded in the case history.

What you'll see – and what you won't

You can see

- Remediation for the advisers you supervise.
- Their cases waiting for your sign-off.
- Their closed cases.

You won't see

- Cases for advisers who aren't mapped to you.
- Cases still waiting for, or going through, a Tax or AQS check.
- Case allocation – that's handled by the Tax and AQS Team Managers and the OTIS Manager.

Emails you'll receive

- When an adviser you supervise sends a remediation for your sign-off, including each time they send it again after a rejection.
- When you approved, left the case for a separate regrade and a recheck is needed: an email that the case **is waiting for its final outcome**, asking you to use **Record the final outcome**.

Good to know

- Which advisers you supervise is set by the OTIS administrator. If one of your advisers is missing, ask the administrator to update the **adviser mapping** – their cases can't be signed off until it's in place.
- An adviser can answer **No** to Action performed and still send the form. It's your call whether their explanation is acceptable.
- When rejecting, be specific. Your notes are what the adviser works from.
- A case that had only a Tax check carries no grade to change, so no final outcome is offered: approving it closes it.

Need help?

If something doesn't look right – a case is missing, or an action is refused – contact the OTIS administrator with the case reference and a short description of what you were trying to do.
