Tax Checker

Carrying out the Tax review on cases that need one

As a **Tax Checker** you carry out the **Tax review** on cases that need one. You record the Tax grade and your evidence, set out what needs putting right, and decide whether the case goes on for an AQS check. Your **Tax Team Manager** (or the **OTIS Manager**) decides which cases come to you.

Where you'll work

In the **OTIS portal**, on the **Cases** page, which lists **Your cases**. Each Tax review opens from its case. Sign in with your usual work account.

Where you fit in

Your part of the journey is the Tax check. Most cases you complete then go on to an AQS check.

Dashed steps happen on some cases only: the Tax check where one is needed, the AQS check unless the Tax team returns the case to the paraplanner, the adviser when something needs putting right, and T&C sign-off only for Insufficient evidence, Potential harm or a failed Tax check.

What you can do

- See the cases **allocated to you**.
- Open the client and case information you need for the Tax review.
- Complete the Tax checklist. Your answers are saved as you go.
- Record fail reasons, comments and **who carries each fail**.
- Write a **remedial action** for every fail point.
- Choose what happens next: send the case on to AQS, or return it to the paraplanner.
- Submit the Tax review and save it as a PDF.

How a typical case works for you

1	A case is allocated to you and you receive an email with a link to it.
2	Open the **Cases** page. Tiles at the top count your cases by stage – **Queued**, **Assigned**, **Review in progress**, **Submitted** and **Awaiting remediation** – and **Your cases** lists them below.
3	Open the case by its reference, then open your Tax review from the **Review progress** list. Work through the Tax checklist. You can stop and come back at any time.
4	Where something falls short, record the reason and your comments, and say who carries the fail.
5	Write a remedial action for each fail point. OTIS won't let you submit until every one has one.

6 Under **For Tax team usage**, choose **Submit to AQS** (the case moves on for an AQS check) or **Return to paraplanner** (no AQS check follows your Tax check).

7 In the **Submit this review** panel, select **Submit review**. The review is locked and the case moves on.

What happens after you submit

If you chose **Submit to AQS**, the case goes straight into the AQS queue, flagged as **Tax reviewed** and placed at the front. You don't need to pass it on yourself. If your check found issues, the adviser is asked to put them right once the AQS check is finished, together with anything the AQS check finds. If you chose **Return to paraplanner**, a Pass closes the case, and anything to put right goes to the adviser straight away.

What you'll see – and what you won't

You can see

- Cases allocated to you, with your Tax review on each.
- Your Tax reviews in progress.
- Tax reviews you have submitted.

You won't see

- Tax cases that haven't been allocated yet.
- Cases allocated to other Tax Checkers.
- Options to allocate or reallocate cases – that's your manager's job.
- An option to change a review after it has been submitted.

Emails you'll receive

- When a case is allocated to you, you'll get an email with a link to it.

Good to know

- If a case has reached you that you don't think needs a Tax check, speak to your Tax Team Manager rather than submitting it.
- A submitted Tax review can't be edited, because the next step has already started from it.
- If a case is moved to another Tax Checker, the work done so far is kept, and the case leaves your list.

Need help?

If something doesn't look right – a case you expected is missing, you can't open a page, or an action is refused – speak to your team manager first. They can raise it with the OTIS administrator. When you get in touch, include the case reference and a short description of what you were trying to do.
