Tax Checker

Carrying out the Tax review on cases that need one

As a **Tax Checker** you carry out the **Tax review** on cases that need one. You record the Tax grade and your evidence, set out what needs putting right, and decide whether the case goes on for an AQS check. Your **Tax Team Manager** decides which cases come to you.

> **Where you'll work**
> In the **OTIS portal**, on the **Tax reviews** page. Sign in with your usual work account.

Where you fit in

Case received › **Tax check (if needed)** › AQS check › Adviser puts things right › T&C Manager signs off › Case closed

Your part of the journey is the Tax check. Most cases you complete then go on to an AQS check.

What you can do

- See the cases your Tax Team Manager has **allocated to you**.
- Open the client and case information you need for the Tax review.
- Complete the Tax checklist. Your answers are saved as you go.
- Record fail reasons, comments and **who carries each fail**.
- Write a **remedial action** for every fail point.
- Choose what happens next: send the case on to AQS, or return it to the paraplanner.
- Submit the Tax review and save it as a PDF.

How a typical case works for you

1. Your Tax Team Manager allocates a case to you and you receive an email.
2. Open the **Tax reviews** page. Your cases are grouped as **Allocated**, **In progress** and **Completed**.
3. Open the case and work through the Tax checklist. You can stop and come back at any time.
4. Where something falls short, record the reason and your comments, and say who carries the fail.
5. Write a remedial action for each fail point. OTIS won't let you submit until every one has one.
6. Under **For Tax team usage**, choose **Submit to AQS** (the case moves on for an AQS check) or **Return to paraplanner** (the case ends with your Tax check and no AQS check follows).
7. Select **Submit this review**. The review is locked and moves to **Completed**.

What happens after you submit

If you chose **Submit to AQS**, the case goes straight into the AQS queue, flagged as **Tax reviewed** and placed at the front. You don't need to pass it on yourself. If your check found issues, the adviser is only asked to put them right once every check on the case is finished.

What you'll see – and what you won't

You can see

- Cases allocated to you.
- Your Tax reviews in progress.
- Tax reviews you have completed.

You won't see

- Tax cases that haven't been allocated yet.
- Cases allocated to other Tax Checkers.
- Options to allocate or reallocate cases – that's your manager's job.
- An option to change a review after it has been submitted.

Emails you'll receive

- When a case is allocated to you, you'll get an email with a link to it.

Good to know

- If a case has reached you that you don't think needs a Tax check, speak to your Tax Team Manager rather than submitting it.
- A submitted Tax review can't be edited, because the next step has already started from it.
- If a case is moved to another Tax Checker, the work done so far is kept.

Need help?

If something doesn't look right – a case you expected is missing, you can't open a page, or an action is refused – speak to your team manager first. They can raise it with the OTIS administrator. When you get in touch, include the case reference and a short description of what you were trying to do.
